

# WE NEED YOU!

Can your setting offer some one who is interested in working in childcare the opportunity to do 2 work experience sessions?

The person coming to your setting will not necessarily have a CRB check so they will need to be appropriately supervised by a member of your staff. We will there pay your setting to support the candidate during their experience.

It is up to you how you plan the sessions but we would like you to include the following as part of their experience:

- . A brief Health and safety induction.
- . A tour of your facilities
- . To show them a copy of the curriculum plans for the day
- . An introduction to care routines
- . Observation/involvement in a number of different activities across the curriculum

To register your setting please contact the
